This is the L<sup>A</sup>T<sub>E</sub>X 2<sub>ε</sub> template for preparing a one-page abstract for the poster contribution to the 29th International Conference on Atomic Physics (ICAP29), to be held from June 14 to June 19, 2026 in Wuhan, China. Your abstract will appear in the book of abstracts. Please ensure it is in the final publishable form.

Instructions:

1. 1 page, A4 or letter size.
2. File format is L<sup>A</sup>T<sub>E</sub>X or MS Word.
3. Please use the Times font family.
4. All margins should be at least 2.5 cm.
5. Single-spaced lines.
6. Please use the following layout.
  - Title (15 pt, boldface, centered)
  - Names of authors (10 pt, boldface, centered)
  - Affiliations (10 pt, Italic, centered)
  - Corresponding author's e-mail address
  - Main text (10 pt)
  - References
7. Table and figure captions should use font size 9.
8. The A4 page will be printed in the same size.

The total size of your contribution should not exceed 5 MB.

This template is available at <https://www.icap29.com/call-for-abstract.html>. Equations, references [1] (using the Phys. Rev. style [2]), figures and tables may be included using appropriate L<sup>A</sup>T<sub>E</sub>X environments.

As usual, L<sup>A</sup>T<sub>E</sub>X environments can be used to include equations, tables, figures, and references. Here goes a sample equation,

$$\mathcal{H} = -\frac{\hbar^2}{2m} \frac{\partial^2}{\partial x^2} + \frac{1}{2} m \omega^2 x^2. \quad (1)$$

and also a numbered figure, Fig. 1, inserted in the text.

Figure 1: Sample figure, ICAP 2026 Logo.
